

UkkenLinks - User Guide

Welcome to **UkkenLinks**, your premium **WEB Link Viewer**. This guide will walk you through the application's features and demonstrate how to manage your collection of web URLs and page embeds seamlessly.

1. Getting Started

Logging In

When you first open UkkenLinks, you will be greeted by the secure login screen. - **Email Address & Password:** Enter your credentials to access your link gallery. - **Test Account:** You can use `demo@example.com` with the password `demo123`. Please note that the test account is restricted to a maximum of 5 web links.

2. Managing Your Web Links

Adding a Link

1. Locate the **Title** input field at the top of the application and type a descriptive title for your web link.
2. Paste the target URL (e.g., website pages, application links, content URLs) into the **URL** input field.
3. Press **Enter** or click the **Add** button. *Tip: If you copy a valid URL to your clipboard, the app will attempt to process it when you paste it into the field.*

Removing Links

- **Remove a Single Link:** Hover over a link card in your gallery grid and click the **Delete (Trash)** icon.
- **Clear All Links:** Click the **Clear All** button (trash icon in the top right header) to wipe completely and start fresh.

Reordering Links

You can easily reorder your web links! Just **click and drag** any card to a new position in the grid to organize your resources to your liking.

3. Viewing Web Links

The Grid View

Your web links are displayed in a responsive grid. - **Toggle Grid Size:** Click the **Grid** icon in the top right header to switch between large and small card layouts. - **Open Live Website:** Click the **Open** button over any card to launch the webpage in a new tab instantly.

The Lightbox (Full-Screen Immersive Viewer)

Click on any link card to open the preview in the Lightbox for an immersive, distraction-free view (where iframe embedding is permitted). - **Navigation:** Use the **Previous** (<) and **Next** (>) buttons on the sides or press the **Left** and **Right** arrow keys. - **Open Original:** Click the **External Link** icon at the bottom of the lightbox to fully open the URL in a new browser tab. - **Close Lightbox:** Click the **Close (X)** button at the top left, click the dark background, or press the **Escape** key.

4. Search and Organization

Searching Your Links

Use the **Search Bar** located above the gallery to quickly find specific sites or web links you saved. - Start typing a title or a part of the URL. The grid will automatically filter to show matching results instantly. - Click the **X** icon inside the search bar to clear your search.

5. Exporting and Importing Your Gallery

You can back up your entire web link collection or migrate it to another device using the JSON export/import feature.

- **Export:** Click the **Export JSON** button in the header. This will download a file named `gallery.json` containing all your web links and metadata.
 - **Import:** Click the **Import** button in the header and select your previously saved `gallery.json` file. The links will be merged with your current gallery automatically!
-

6. Keyboard Shortcuts

UkkenLinks supports several keyboard shortcuts to speed up navigating your links:

Global: - **Escape:** Clear the URL input field and remove focus.

While in the Lightbox: - **Escape:** Close the Lightbox. - **Arrow Left / Arrow Right:** Navigate to the previous or next link preview.

7. Account Management

Link Limits

Depending on your account type, you may have a limit on how many web links you can store (e.g., the test account has a 5-link limit). Your current usage is displayed directly below the link input fields.

Logging Out

To secure your session, click the **Logout** button in the top right corner of the header. You will be returned to the login screen.
